QUALITIES

Interested to learn new things and explore new ideas.

Self-learning & Motivated.

Dedication towards work.

SIGNATURE VERIFICATION SYSTEM USING CNN

Technologies: Python, Machine Learning, CNN Algorithms

Description:

Every person has a unique signature that is used primarily for personal identification & verification of important documents or transactions. Mostly used to authenticate checks, certificates, letters & other documents. Because a signature is used in such critical activities, verification of its authenticity is essential.
